# **THOMSON ADDS CHECK REGISTER TO FAST-TAX SOFTWARE**

## **Integrated Software Increases Workflow Efficiencies for Trust and Estate Professionals**

---

**CARROLLTON, TX – January 3rd, 2007** – Thomson Tax & Accounting, a strategic business unit within The Thomson Corporation (NYSE: TOC; TSX: TOC), has added a check writing capability to the Fiduciary Practice System accounting software (FPS ACT), providing trust and estate professionals with a flexible, accurate, and efficient solution to create, record, and print checks.

The Check Register is integrated with the checking account reconciliation feature within FPS ACT, providing users with the ability to:

- Print checks and post the appropriate entry to FPS ACT simultaneously;
- Record checks for previously entered payments;
- Produce one check for multiple charges, each of which may be reflected separately in your account;
- Choose from multiple check layout formats when you configure checks for printing;
- Reconcile bank accounts; and
- Print an account registry for specified time periods, including periods that were previously reconciled.

“Adding Check Register to the Fast-Tax FPS product line is yet another example of our drive to help trust and estate professionals spend less time and effort on routine transactions, so they can devote more time to billable operations,” said Chuck Cappicille, senior vice president of Corporate Markets, Thomson Tax & Accounting.

For more information on Thomson’s Fast-Tax, visit <http://www.fasttax.thomson.com> or call 1-888-706-1041.
