# **CHECKPOINT<sup>®</sup> CELEBRATES 10<sup>TH</sup> ANNIVERSARY**

***Continues its momentum as the leading tax and accounting research solution in the industry***

---

**NEW YORK, NY, September 24, 2007** – Thomson Tax & Accounting, a segment of The Thomson Corporation (NYSE: TOC; TSX: TOC), is celebrating the anniversary of Checkpoint<sup>®</sup>, its industry-leading online research solution for tax and accounting professionals which revolutionized the industry ten years ago. Checkpoint brings together the most trusted information on the most powerful research system available, providing expert guidance, optimal research efficiency, and practice development tools to help its users build revenue.

Checkpoint was the industry's first comprehensive Web-based tax research product. In July 1997, Checkpoint transformed the industry by combining comprehensive tax information and research with the speed and power of the Internet to deliver accurate and up-to-date federal, state, local, and international tax research.

Today, Checkpoint continues its momentum through innovation recognized and acknowledged throughout the industry and continues to be the most widely used source for advanced research and analysis for tax and accounting professionals. In the age of information, Checkpoint keeps its subscribers on the cusp of developing news and brings subscribers in-depth tax and accounting analysis that allows for informed business decisions.

The breadth and depth of content offered by Checkpoint is unmatched with more than 85 percent of Fortune 1000 Corporations using the product. In addition, 95 percent of the top 100 accounting firms and 93 percent of the top 100 law firms are among Checkpoint's users. No

other tax research system provides search results across practice areas. Checkpoint is the only system that provides one platform for all tax, accounting, auditing and financial reporting and management content.

Thomson Tax & Accounting addresses the changing needs of its customers with regular innovative technological enhancements to Checkpoint. These enhancements are delivered four times a year. And Corporate Tax Practitioners have chosen Checkpoint as their #1 Internet tax research provider. According to the latest Corporate Tax Department Survey from Tax Executive Institute, Inc., more corporate tax professionals use Checkpoint as their primary internet research service source than any other provider.

Over the years, Checkpoint has received numerous awards including a 5-star rating in *The CPA Technology Advisor's* review of tax research applications four consecutive years (2004-2007). Checkpoint has also been recognized several times during the annual Software & Information Industry Association's Codie Awards, winning the award for Software Excellence, named a finalist in 2006, and three Checkpoint solutions named finalists in 2007. Other awards include a 5-star rating by *CPA Software News* and a Top 5 rating by *CPA Magazine* for tax research.

Checkpoint's seamless integration between primary sources, RIA, WG&L and PPC analysis, and third party content is part of the Checkpoint trademark. Checkpoint is now fully integrated with three of Thomson Tax & Accounting's leading tax preparation software packages—InSource Express RS, GoSystem Tax RS, and UltraTax CS—providing even more integration.
